Advanced Dermaphasic Devices

VitaPhase®

VitaPhase® dermaphasic devices are specifically designed to optimize all treatments for the face and body performed in your institute. VitaPhase® works in synergy with all systems of the Vitali-T™ line, and can also be combined with your electrostimulation and microdermabrasion treatments. You wish to stimulate, regenerate, deep-clean, ionize, massage during a treatment session? Anything is possible with VitaPhase®!

The time has come to rise above the crowd and offer your clients a wide variety of outstanding treatments for the face and body with VitaPhase® dermaphasic devices.

Stimulomassage with VitaPhase® SM

The VitaPhase® SM allows you to offer cutaneous stimulation and cellular renewal treatments as well as perform relaxing vibro-massages.

- Offers three functions: relaxing vibro-massage, chromotherapy (red) and cutaneous stimulation
- Activates microcirculation
- Stimulates the cellular renewal process
- Provides a revitalizing effect by chromotherapy
- Relaxes the client thanks to the relaxing vibro-massage
- For facial and body treatments

Ionomassage with VitaPhase® IM

The VitaPhase® IM allows you to perform ionophoresis treatments as well as active vibro-massages.

- Offers three functions: ionization, deep-cleansing and active vibro-massage
- Maximizes the impact of active ingredients contained in ionizable products
- Helps active ingredients penetrate the skin to reach the deeper layers even more quickly, thereby increasing the effectiveness of all your treatments
- Activates microcirculation thanks to the active vibro-massage
- For facial and body treatments

Boost the effectiveness of your treatments
with VitaPhase® devices!
